

GPS – Geocaching Activity

New Pack or Troop or Crew Program Enhancement Equipment

Through leadership of Mark Goudy, Past Council President, the council secured 35 Garmin GPS units for use in council and unit programming. Below are details of the equipment. This equipment is available for unit use at council properties. A reservation procedure is being set up and will open after May 1, 2022. for checking out the equipment. The equipment can be used at unit meetings by submitting a reservation. A training course schedule is being planned for adult Scouters to be certified to use the equipment. One of the requirements to checkout the equipment is for adult leaders to be trained in use of the equipment and BSA program plan for Geocaching.

The Equipment:

The Garmin eTrex twenty-two times and thirty-two times offer enhanced 2.2," 65K color, sunlight-readable displays. Durable and water resistant, these handhelds are built to withstand the elements.

Explore the Terrain

The eTrex twenty-two times and thirty-two times handheld device come preloaded with road routable Topo Active maps for outdoor activities that feature streets and trails so you can take the journey off the grid. Now you can know your surroundings — such as waterways, natural features as well as buildings, international boundaries and more. You can also find thousands of points of interests, including shops, restaurants, universities, car parks and accommodations.

Go Anywhere

With an array of compatible mounts, eTrex is designed as a handheld — for use on ATVs or bicycles, in boats or on foot. Use the auto mount capability and City Navigator® NT maps for turn-by-turn driving directions for motorized vehicles or use the rugged mount for your motorcycle or ATV. Wherever you think you might take eTrex, it has the mapping and mounts to get you there.

Keep Your Fix

The eTrex series uses both GPS and GLONASS satellite systems so the receiver could track in more challenging environments than GPS alone. eTrex thirty-two times adds a 3-axis compass and barometric altimeter, making it easy for you to keep your bearings.
